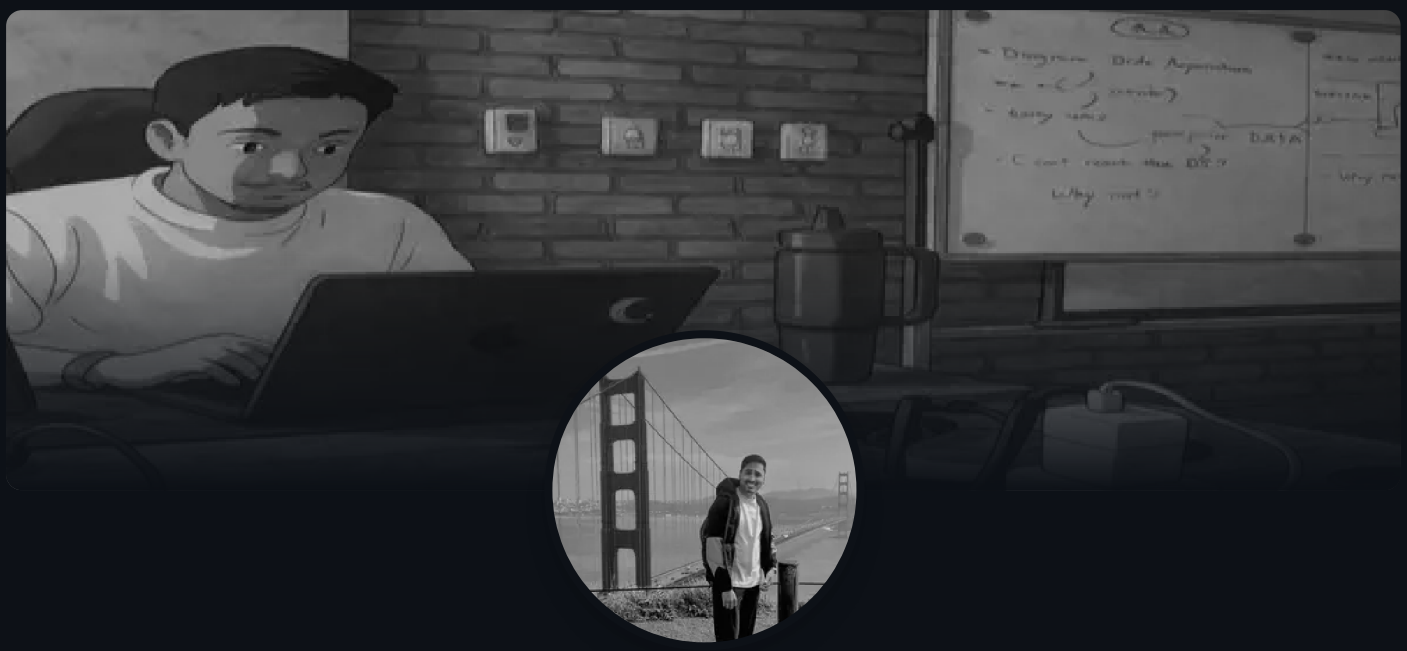
resume-agent — prince-raj

▸ resume-agent v1.0.0 — Fetching resume for Prince Raj ...



Prince Raj

A blockchain generalist who can go from idea to end product.

BANGALORE, INDIA | RAJPRINCE.CS@GMAIL.COM | LINKEDIN

▸ Task Read profile summary

✓ Read about.md

> I am a blockchain and AI systems engineer who can take an idea from first principles to production-grade protocols.
>
> Experienced across distributed systems, protocol engineering, applied cryptography, DeFi mechanisms, and AI agent architectures, with a strong focus on building scalable, secure, and composable systems at the intersection of blockchain and AI.
>
> 2× ETHIndia winner and 10× hackathon winner in a single year, with hands-on experience designing end-to-end architectures spanning smart contracts, L2s, on-chain/off-chain systems, and agent-driven execution frameworks.

▸ Task Analyze technical skills

✓ Glob skills/**/* — found 11 categories

Languages/

Rust, Solidity, TypeScript, Python, SQL, JavaScript, Cairo, Move

Backend & Distributed Systems/

Node.js, High-performance APIs (REST, GraphQL, gRPC), Event-driven architectures, WebSockets, PostgreSQL, Redis, MongoDB, State materialisation layers, Indexers, Caching strategies, Distributed job queues

Blockchain & Protocol Engineering/

Ethereum (EVM internals), EVM-based L2s (Optimistic & ZK Rollups), Solana (Sealevel runtime), Avalanche Subnets / L1s, XRP Ledger, Cross-chain messaging, Validator & Sequencer design, Custom VM extensions, State machines, MEV-aware systems

Smart Contracts & Security/

Upgradeable contract patterns (UUPS, Diamond), Gas-optimized storage layouts, Formal invariants, Reentrancy mitigation, Oracle attack prevention, Audit-driven development

Applied Cryptography/

zk-SNARKs / zk-STARKs (circuits & constraints), Merkle & Sparse Merkle Trees, Threshold signatures (MPC), VRFs, Hash commitments, Signature schemes, Proof verification systems

DeFi & Mechanism Design/

AMMs, Lending protocols, Perpetuals, Prediction markets, Single-liquidity tree models, Collateralization math, Emission curves, Incentive design, Slashing systems, Reputation systems, Game-theoretic modeling

AI Systems/

Transformer architecture, Tokenization & embeddings, Fine-tuning (LoRA / PEFT), RAG pipelines

LLMs & Agentic Systems/

LLM internals, Tool-calling agents, Autonomous agents, Multi-agent coordination (A2A), Memory & planning systems, MCP, x402, Intent-driven execution frameworks, Verifiable AI workflows

AI × Blockchain/

On-chain AI agents, Verifiable inference, Autonomous wallets, Intent-based transactions, AI-driven protocol automation, Decentralised execution & settlement, Trust-minimised AI architectures

Architecture & Ownership/

End-to-end DeFi protocol architecture, Failure-mode analysis, Trade-off documentation, Upgrade & governance strategies, Security-first design, Scalability & performance optimization

Infrastructure & DevOps/

Docker, CI/CD, Infra-as-Code, AWS / GCP, Observability, Secure key management

▸ Task Fetch career history

✓ Grep experience/*.yaml — 9 positions

OCTOBER 2022 – MARCH 2026

Co-Founder

ReputeX — Bengaluru, Karnataka, India · Remote

- Establishing the Reputation Primitives in Web3 and Building the Reputation Layer with Verifiable Computes.

OCTOBER 2022 – JANUARY 2024

Contributor

Web3meetup — Bengaluru, Karnataka, India

JULY 2022 – NOVEMBER 2022

Lead Blockchain Consultant

Chainiom — New Zealand

AUGUST 2022 – SEPTEMBER 2022

Chief Blockchain Officer

Nord Finance — Bengaluru, Karnataka, India

DECEMBER 2020 – AUGUST 2022

Lead Blockchain Developer

Nord Finance — Bengaluru, Karnataka, India

- Led development of complete DeFi and CeFi products across multiple chains including Ethereum and Polygon.
- Responsible for full product lifecycle: research → architecture → development → deployment.
- Designed scalable, secure smart contract systems and off-chain integrations.
- Mentored team members and guided career growth and technical advancement.
- Ensured rapid adoption of ecosystem changes including forks, migrations, and mainnet launches.

APRIL 2021 – AUGUST 2022

Blockchain Development Advisor and Consultant

Redux Protocol — Canada

NOVEMBER 2020 – NOVEMBER 2021

Freelance Blockchain Trainer

ETHNUS — Bengaluru, Karnataka, India

JULY 2019 – NOVEMBER 2020

Associate Software Engineer — Product Development, Engineering/R&D

Harman Connected Services Corp India Private Ltd — Bengaluru, Karnataka, India

- Worked as Software Developer in Product Development (Engineering / R&D).
- Contributed to enterprise-grade engineering systems and product lifecycle delivery.

JULY 2018 – SEPTEMBER 2018

Software Development Intern

Flyrobe — Mumbai Area, India

▸ Task Compile achievements

✓ Read achievements.log — 3 entries

[01] 2× ETHIndia Winner

[02] 10× Hackathon Winner in a single year

[03] Built production-grade blockchain & AI systems end-to-end

---

✓ Resume compiled successfully.
